

I strongly oppose loosening the broadcast ownership regulations that are being proposed by Mr. Powell. America was built on a firm belief in free speech, and reducing the number of media outlets, with their bias and filtering of topics, is a challenge to that free speech. I also oppose the method that Mr. Powell choose to advance this proposal. It is obvious from the public furor that this is not the direction or method that a government of 'we the people, by the people' believe we should be heading in. I urge you to reject this proposal.
